Alerts in the Past

What if you are not listening to the radio or watching TV,
how would you know that an alert has been issued?

13

Alerts in the Future

Now you can get alerts on your computer and mobile devices!

14

Digital Information Network

The **Digital Information Network desktop application** is the leading weather and news utility on the market, delivering up-to-the-second, real-time news, weather, AMBER and Homeland Security alerts straight to a user's desktop – for free.
